Terms and Conditions

1. Scope of Work

- This quotation covers only the features and modules explicitly mentioned in the Scope of Work section above.
- Any additional features, modules, or custom changes not included in the scope will be considered outside the project and quoted separately.
- Third-party services or APIs (e.g., WhatsApp Business API, Google Speech API, Google Maps API) may incur additional charges and are subject to their respective provider's terms.

2. Payment Terms

- 40% advance payment is required upon project confirmation.
- 40% midway payment is due after the main development phase is completed.
- 20% final payment is due upon successful delivery and deployment.
- All payments must be made via bank transfer to the account.

3. Content and Materials

- The client is responsible for providing all necessary content, logos, images, and other materials required for development.

4. Warranty & Support

- A 2-month post-deployment warranty is provided for bug fixes and system stability issues strictly related to the original scope of work.

This warranty excludes:

- New feature additions or enhancements
- UI/UX redesigns
- Failures or changes in third-party APIs or platforms (e.g., WhatsApp, payment gateways)

- After the warranty period, support will be available only under an Annual Maintenance Contract (AMC).

5. Confidentiality

Both parties agree to maintain the confidentiality of all project-related data, strategies, credentials, and communications.

- No information shall be disclosed to third parties without prior written consent.
- This clause remains valid even after the completion of the project.
